ABA THERAPY, Individualized and Transformative

GBC Autism Services
helping transform lives®

WHO ARE WE?

GBC is owned and operated by BCBA leadership, and has been serving families since 2014. We are a passionate team of Board Certified Behavior Analysts (BCBAs), Registered Behavior Technicians (RBTs), and administrative staff committed to transforming the lives of individuals with Autism Spectrum Disorder (ASD), their families, and communities.

Our person-centered approach leads to the best possible outcomes for our patients because they are the primary focus of everything we do. Our goal is to create a positive impact and improve the quality of life for everyone with whom we work.

IN-HOME AND CENTER-BASED ABA THERAPY

Our caring staff will come to your home for ABA therapy with an emphasis on individualization, family focus, and your natural environment. We also offer center-based services in Peoria, Normal, and Bolingbrook.

HOW CAN WE HELP?

GBC's objective is to increase behavioral independence for individuals affected by ASD. We do this by turning goals into outcomes. Each goal is achieved by providing evidence-based treatment with a focus on individuals with developmental needs and challenging behaviors by fostering and encouraging adaptive skills. We also work with you, the caregiver, in order to help and encourage you to carry what we do during an ABA therapy appointment into the child's or adult's broader environments at home, school, play, community, and/or work.

SCHOOL CONSULTATION SERVICES

Our BCBAs support districts, schools, classrooms and individual students in both public and private settings. GBC Autism Services school consultants utilize several ABA based consultation and training methods to help schools improve already existing systems or develop systems to improve behaviors of classrooms and individual students.

SOCIAL SKILLS GROUPS

Our blended social skills programs provide naturalistic opportunities to interact with peers in a supported environment. Programming is designed by BCBAs.

WHY GBC?

- We offer intense training for Behavior Technicians and BCBAs
- We're dedicated to the highest standard of treatment.
- We pride ourselves on quick and efficient communication — Families can always reach us with questions or concerns!
- Our program is not "one size fits all." Every element is tailored and customized for each individual child and family based on their specific needs and strengths.
- We're BCBA owned and operated

Caterpillar
Autism Learning Center

An autism-friendly learning environment as an alternative to traditional preschool-like settings. We take every opportunity to integrate social skills and cooperative play into your child's day, while teaching them the pre-academic skills to be success in school.
